UnixWare 7.1.3 - Retirement Announcement

9 February 2007: SCO offers contractual notification of the retirement of its UnixWare 7.1.3 product line. The retirement is effective 30 April 2007. Additionally SCO is announcing the end of standard support for the product. This announcement includes:

    1   Description
    2   Support Withdrawal
    3   Affected Model Numbers

Visit www.sco.com/products for more information about other products and support services from SCO.

1 Description

As was announced in October 2006, SCO is providing contractual notification of the retirement of the UnixWare 7.1.3 family of products **effective 30 April 2007**.

Current UnixWare 7.1.3 customers are encouraged to consider upgrading to UnixWare 7.1.4 which offers a wide range of new features as well as selective increases in the edition defaults for users, CPUs, and memory.

2 Product Support Retirement

Full SCO support for UnixWare 7.1.3 will continue to be offered through **30 April 2008**. Existing customers will receive standard support through the expiration dates of their support contracts up to 30 April 2008. Effective 1 May 2007, only limited Retired Product support will be available for purchase for this product for any new and renewing customers.

3 Affected Model Numbers

Effective 30 April 2007, the following model numbers will no longer be on the price list and will be available only via special order.

UnixWare 7.1.3
